MEMORANDUM FOR: Comptroller

FROM: Harry E. Fitzwater  
Deputy Director for AdministrationSUBJECT: FY 1985 Reprogramming Request  
New Building Support InitiativeDDA/ [unclear]  
FILE: (45-8) 430-8

25X1 1. Your approval is requested for reprogramming of  
25X1 [redacted] in the New Building  
Support Initiative, [redacted]

2. This sum represents funds for procurement of alarm systems and associated equipment which the Office of Security (OS) will not be able to obligate in FY 1985, but will need upon completion of full staff processing in FY 1986, for the purpose originally intended. The Office of Communications (OC) requires funds in this amount in FY 1985 for application to the ongoing intra-building communications segment engineering contract (Local Area Network) and acquisition of Uninterrupted Power Source equipment for OC's relocated telephone switch. In FY 1986, [redacted] of the OC funding will be made available to OS to complete its alarm system acquisition.

25X1 3. Requirements for FY 1985 for site security personnel,  
25X1 both Federal Protective Services and independent contractors, have proven lower than originally budgeted. Your approval is requested, therefore, for reprogramming of \$237,000 from SOC [redacted] and \$468,000 from [redacted] in the New Building Support [redacted] for application to the existing C&P Telephone and associated time and materials contracts for the relocation of leased transmission equipment. This will complete the funding of this contract required by July 85, and provide some additional support in June for the layout of the new Communications Operations Center [redacted] activities.
